

VINCENTS POLYLINE SIA

PRODUCT SAFETY DATA SHEET/DETAILS OF THE CHEMICAL OR PRODUCT

in accordance with COMMISSION REGULATION (EU) 2020/878, from 18 June 2020

Date: 20.07.2023

PVA D2

Version No. 2.0

Print date: 7/9/2024

1. IDENTIFICATION OF THE MIXTURE AND COMPANY

1.1. Product identification:

PVA D2

1.2. Relevant identified uses of the substance or mixture and uses advised against:

Universal glue for interior work.
Use in accordance with the instruction developed by the company.

1.3. Information about safety data sheets Supplier

1.3.1. Manufacturer/importer:

SIA Vincents Polyline

1.3.2. Company register number:

40003358071

1.3.3. Full address:

29 Cīruļu Street, Kalngale,
Carnikavas parish, Adazu county, LV-2163, Latvia

Phone:

+371-67903272

E-mail:

polyline@polyline.vincents.lv

1.4. Emergency telephone number:

Ambulance: 113
State Fire and Rescue Service: 112
Toxicology and sepsis clinics Poisoning and Drug Information
Centre, Hipokrata 2, Riga, Latvia, LV-1038; works 24 hours a
day. Tel. no. +371 67042473

2. HAZARD IDENTIFICATION

2.1. Classification of the substance or mixture

In accordance with Regulation (EC) No. 1272/2008:

In accordance with the European Union directives and the local legislation, the product is not classified as harmful

2.2. Label elements

GHS pictograms:

Not applicable

Signal word:

Not applicable

Hazard designations:

Not applicable

Precautionary statements:

Prevention:
P102 – Keep away from children

VINCENTS POLYLINE SIA

PRODUCT SAFETY DATA SHEET/DETAILS OF THE CHEMICAL OR PRODUCT

in accordance with COMMISSION REGULATION (EU) 2020/878, from 18 June 2020

Date: 20.07.2023

PVA D2

Version No. 2.0

Print date: 7/9/2024

2.3. Other hazards:

The product does not meet the PBT and vPvB criteria according to Annex XIII to the REACH Regulation (Regulation (EC) No 1907/2006).

On the basis of the available data, the product does not contain ingredients for which in accordance with Article 57(f) of REACH or Commission Delegated Regulation (EU) No. 2017/2100 or Commission Regulation (EU) No 2018/605 are considered to have endocrine disrupting properties at a concentration of 0.1% or more.

3. COMPOSITION/INFORMATION ON INGREDIENTS

3.2. Mixtures

Chemical characteristics:

Mixture

Declaration of ingredients in accordance with Regulation (EC) No. 1272/2008:

The mixture does not contain dangerous substances exceeding the limit values of the EU Regulation.

4. FIRST AID MEASURES

4.1. Description of first aid measures

Inhalation:

Ensure influx of fresh air.

Skin contact:

Wash the skin with a large amount of water.

Eye contact:

Rinse with a large amount of water for 15 min., consult a physician, if necessary.

Ingestion:

Rinse your mouth and drink plenty of water. Consult a physician. Do not induce vomiting.

4.2. The most important symptoms and effects – acute and delayed

Symptoms:

Allergic reaction

4.3. Indication of the need for immediate medical attention and special treatment

Instructions to the doctor:

Treat symptomatically. Immediately contact a toxicologist or a specialist of the Poisoning and Drug Information Center.

5. FIRE EXTINGUISHING MEASURES

5.1. Fire extinguishing agents

VINCENTS POLYLINE SIA

PRODUCT SAFETY DATA SHEET/DETAILS OF THE CHEMICAL OR PRODUCT

in accordance with COMMISSION REGULATION (EU) 2020/878, from 18 June 2020

Date: 20.07.2023

PVA D2

Version No. 2.0

Print date: 7/9/2024

Suitable fire extinguishing devices: Use foam, water jet, CO2 fire extinguishers in case of fire.

Unsuitable extinguishing media: Do not use a jet of water of full capacity.

5.2. Specific hazards arising from the substance or mixture

Special hazards during fire: Fire may result in the release of toxic substances, for example, carbon monoxide.

5.3. Recommendations for firefighters

Special protective equipment: Wear a gas mask that does not depend on the surrounding air composition.

Additional information: Collect the contaminated drinking water separately, it should not enter the drainage.

6. ACCIDENTAL RELEASE MEASURES

6.1. Personal protective measures, protective equipment and emergency procedures: Wear appropriate protective clothing, as indicated in Article 8.3.

Persons not trained in emergency situations: Do not perform any activities that may pose any personal risk or activities without proper training.

For emergency responders: Wear personal protective equipment. Ensure adequate ventilation.

6.2. Environmental safety measures: Prevent entry of the product in the drainage, water systems, soil.

6.3. Localization (containment) and collection techniques and materials: Collect larger amounts in containers. Absorb with material that collects moisture.

6.4. Reference to other sections: For personal protection, see Section 8. For information on disposal of the substance or packaging, see Section 13.

7. HANDLING AND STORAGE

7.1. Precautions for safe handling: See Section 8 for information on personal protection measures of personnel.

Warnings for safe use: Use in well-ventilated premises. Wash your hands before breaks and at the end of work.

VINCENTS POLYLINE SIA

PRODUCT SAFETY DATA SHEET/DETAILS OF THE CHEMICAL OR PRODUCT

in accordance with COMMISSION REGULATION (EU) 2020/878, from 18 June 2020

Date: 20.07.2023

PVA D2

Version No. 2.0

Print date: 7/9/2024

Occupational hygiene measures:

Irritating and toxic gases may be emitted as a result of burning or heating.

7.2. Conditions for safe storage including any incompatibilities:

Storage:

Storage temperature from + 5 to + 30 °C. Protect from cold and direct sunlight.

7.3. Specific type(s) of end use(s):

See section 1.2.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1. Control parameters:

Applicable occupational exposure limit values:

Not determined for the mixture (water solution of substances).

8.2. Exposure management

Appropriate technical management:

Ensure good ventilation and personal protective equipment. See also Section 7.

Personal protective equipment

Respiratory protection:

Respirator with an appropriate filter.

Skin protection:

Hand protection:

PVC gloves.

Body protection:

Not applicable.

Eye/face protection:

Use eye protection.

Hygiene measures:

Handle in accordance with good industrial hygiene and safety practices. Avoid skin and eye contact with product. No eating, drinking or smoking during work. Wash the contaminated clothes before re-use.

Environmental risk management:

Do not dispose of the product into groundwater or surface water. See also Sections 6 and 12.

9. PHYSICAL AND CHEMICAL PROPERTIES

9.1. Information on basic physical and chemical properties

VINCENTS POLYLINE SIA

PRODUCT SAFETY DATA SHEET/DETAILS OF THE CHEMICAL OR PRODUCT

in accordance with COMMISSION REGULATION (EU) 2020/878, from 18 June 2020

Date: 20.07.2023

PVA D2

Version No. 2.0

Print date: 7/9/2024

Appearance:	
Physical form:	Liquid
Colour:	White
Odour:	Light, specific to the product
Odour threshold:	No information available
pH:	4–5
Melting point/freezing point:	Not applicable
Boiling point and boiling range:	100 °C
Flash point:	Not determined
Evaporation rate:	Not determined
Flammability (solid, gaseous)	Not classified. In accordance with the transportation regulations, the substance does not burn.
Upper/lower flammability or explosive limits:	Not determined
Vacuum pressure:	Not determined
Vapour density:	Not applicable
Density:	1,08 g cm-3 ± 0,01 g/cm ³
Solubility:	Can be mixed with water with no limitations.
Partition coefficient (n-octanol/water):	N.D.A.
Auto-ignition temperature:	Not determined
Decomposition temperature:	Not determined
Viscosity:	Not applicable
Explosion hazard:	Not dangerous
Oxidising properties	Not determined

9.2. Other information

PRODUCT SAFETY DATA SHEET/DETAILS OF THE CHEMICAL OR PRODUCT

in accordance with COMMISSION REGULATION (EU) 2020/878, from 18 June 2020

Date: 20.07.2023

PVA D2

Version No. 2.0

Print date: 7/9/2024

Maximum upper pressure explosive limits:	Not applicable
--	----------------

Minimum ignition energy:	Not applicable
--------------------------	----------------

10. STABILITY AND REACTIVITY

10.1. Reactivity	Does not react during normal use
-------------------------	----------------------------------

10.2. Chemical stability	Does not degrade during normal use
---------------------------------	------------------------------------

10.3. Probability of hazardous reactions:	Unknown.
--	----------

10.4. Conditions to be avoided:	Avoid freezing
--	----------------

10.5. Incompatible materials:	Not known
--------------------------------------	-----------

10.6. Hazardous decomposition products:	Under normal conditions of storage and use, hazardous degradation products should not form.
--	---

11. TOXICOLOGICAL INFORMATION

11.1. Information on the hazard classes defined in Regulation (EC) No 1272/2008:

Acute toxicity:	Not determined
-----------------	----------------

Corrosion/irritation of skin:	Prolonged contact with skin may cause skin sensitivity
-------------------------------	--

Serious eye damage/eye irritation:	Not determined
------------------------------------	----------------

Respiratory or skin sensitisation:	No evidence of respiratory or skin sensitisation:
------------------------------------	---

Stem cell mutation:	There is no evidence of stem cell mutagenicity
---------------------	--

Carcinogenicity:	There is no evidence of carcinogenicity
------------------	---

Target organ toxicity, single exposure:	Not determined
---	----------------

Target organ toxicity, repeated exposure:	Not determined
---	----------------

11.2. Information on other hazards

11.2.1. Endocrine disrupting properties	On the basis of the available data, the product does not contain ingredients for which in accordance with Article 57(f) of REACH or Commission Delegated Regulation (EU) No. 2017/2100 or Commission Regulation (EU) No 2018/605 are considered to have endocrine disrupting properties at a concentration of 0.1% or more.

PVA D2

Version No. 2.0

Print date: 7/9/2024

11.2.2. Other information

Not available.

12. ECOLOGICAL INFORMATION

12.1. Toxicity

Water environment toxicity:

Not determined

12.2. Stability and capacity to decompose

Biodegradability:

Not determined

12.3. Bioaccumulation potential:

None

12.4. Mobility in soil:

Distribution among environmental compartments:

N.D.A.

12.5. Results of PBT and vPvB assessment

Rating:

The substance does not meet the criteria for PBT and vPvB according to Annex XIII of the REACH Regulation (Regulation (EC) No 1907/2006).

12.6. Endocrine disrupting properties:

No data on adverse effects on animals or aquatic plants/animals are available.

Conclusion:

On the basis of the available data, the product does not contain ingredients for which in accordance with Article 57(f) of REACH or Commission Delegated Regulation (EU) No. 2017/2100 or Commission Regulation (EU) No 2018/605 are considered to have endocrine disrupting properties at a concentration of 0.1% or more.

12.7. Other adverse effects:

There are no reports of significant effects or critical hazards.

13. DISPOSAL CONSIDERATIONS

13.1. Considerations on processing methods

Product:

Dispose as hazardous waste, in accordance with national and local environment protection institution.
Instructions

Packaging

Do not use the empty re-use the packaging. Utilise as special waste, in accordance with local and national legislation.

14. TRANSPORTATION INFORMATION

14.1. UN number:	Not classified
14.2. UN shipping name:	Not classified
14.3. Transport hazard class(es):	Not classified
14.4. Packing group:	Not classified
14.5. Environmental hazards:	Not likely
14.6. Special precautions for users:	Not required
14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code:	Not applicable
14.8. Other information:	In accordance with the international transportation regulations (ADR – for road transportation, IMDG – maritime transportation and IATA – for air transportation), it is not considered dangerous cargo

15. REGULATORY INFORMATION

15.1. Safety, health, and environmental regulations/legislation specific for the substances or mixtures:	The Safety Data Sheet has been drawn up in accordance with Commission Regulation (EC) No. 830/2015. Labelling and classification have been developed in accordance with Regulation (EC) No. 1272/2008 (16 December 2008) of the European Parliament and of the Council on the classification, labelling, and packaging of substances and mixtures, as well as in accordance with Regulation (EC) No. 1907/2006 of the European Parliament and of the Council (REACH). Regulation (EU) No. 528/2012 of the European Parliament and of the Council (22 May 2012) concerning the making available on the market and the use of biocidal products and Cabinet Regulation No. 628 of 27 August 2013, <i>Requirements in Relation to Activities with Biocidal Products</i>. Hazardous waste management in Latvia is performed in accordance with <i>Waste Management Law</i> of 28 October 2010, and the law of 16 December 2010, <i>Amendments to Waste Management Law</i>, Cabinet Regulation No. 484 of 21 June 2011, <i>Procedure for the Record Keeping, Identification, Storage, Packing, Marking and Keeping of Transport Records of Hazardous Waste</i> and Cabinet Regulation No. 795 of 22 December 2015, <i>Procedures for Registration of Chemical Substances and Mixtures and Their Database</i>, and Cabinet Regulation No. 302 (19 April 2011) <i>Regulations on</i>

Waste Classification and the Properties that Make Waste Hazardous.

Transportation information has been developed in accordance with the UN European Agreement concerning the International Carriage of Dangerous Goods by Road, in effect since 1 January 2011, in accordance with Annex 1 to Appendix B of the Convention on International Rail Transportation (in effect since 1 January 2011).

In compiling the information, Cabinet Regulation No. 325 of 15 May 2007, *Labour Protection Requirements when Coming into Contact with Chemical Substances at Workplaces*, Regulation (EC) No. 2009/161 on establishing a third list of indicative occupational exposure limit values and amending Commission Directive 2000/39/EC, Council Directive 98/24/EC of 7 April 1998 on the protection of the health and safety of workers from the risks related to chemical agents at work was considered. Regulation (EC) No. 2037/2000 on substances that deplete the ozone layer, Regulation (EC) No. 850/2004 on persistent organic pollutants.

15.2. Chemical safety assessment:

Safety assessment is applicable, if available.

16. OTHER INFORMATION

16.1. Abbreviations and acronyms

REACH: Regulation 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

CLP: Classification, Labelling and Packaging Regulation (EC) No 1272/2008.

ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road, concluded at Geneva on 30 September 1957, as amended;

RID: Regulations concerning the International Carriage of Dangerous Goods by Rail, which is an Annex to the Convention concerning International Carriage by Rail (COTIF), concluded in Vilnius on 3 June 1999, as amended.

IMDG: International Maritime Dangerous Goods Code

IATA: Agreement on International Carriage by Air

CAS: Chemical Abstracts Service

EINECS: European Inventory of Existing Commercial Chemical Substances

LC50: Mean lethal concentration

LD50: Median lethal dose

REACH: Registration, Evaluation and Authorisation of Chemicals

PBT: biologically accumulative and toxic .

vPvB: very persistent and biologically very accumulative.

c.m.: Body weight.

16.2. Sources of information

ECHA databases.

Safety data sheets will be developed by the raw material manufacturers.

VINCENTS POLYLINE SIA
