

STERILSPRAY

UNIVERSAL SURFACE DISINFECTANT

STERILSPRAY is an efficient universal surface disinfectant that is designed to disinfect various surfaces (furniture, devices, work surfaces, tools, floors, etc.) and objects in residential, public, and industrial premises and areas. A wide spectrum of action against: viruses, bacteria, mould, algae and yeasts; complete disinfection is achieved within 5 minutes. **Instructions for use:** Ready for use, the product need not be dissolved. Spray the disinfectant directly onto the surface/object or moisten a cloth with the disinfectant and carefully apply it to the surface/object than needs treating. After treatment with the disinfectant, use water to rinse all surfaces that will come into direct contact with food. Store in a closed container at a temperature from +5 °C to +30 °C. Protect from freezing. Shelf life: 2 years from the manufacturing date. The manufacturing date is indicated on the packaging.
